Classic Wall Case

The Classic Wall Case is an attractive, secure and affordable way to present your objects and works of art. The clear acrylic vitrine is secured to the frame with screws and lifts off the powdercoated aluminum frame for easy access to the object chamber. The mounting deck and object shelf can be ready-to-paint, painted, or laminated and can include an internal label rail.

Sealed Wall Case

For more sensitive objects, the sealed wall case offers microclimate protection and externally accessible silica gel chambers. It is fabricated from 100% archival materials and can include options such as a pinnable ethafoam deck and object shelf, dimmable, color-adjustable LED lighting and motion sensors.

Hinged Sealed Wall Case

The hinged wall case is a sealed 100% archival microclimate case offering maximum protection for sensitive objects, textiles and works of art. The vitrine opens on a heavy-duty hinge to allow access to the removable deck and object chamber. The silica gel chamber is accessible from outside the case, without removing your object. These cases can be customized to meet your exhibit and archival requirements.

Since 1972, SmallCorp has been a leader in the design and manufacture of archival museum exhibit cases and museum quality picture frames.

We are a vertically integrated manufacturer working in acrylic, glass, metal, wood and textiles to create archival and durable exhibit solutions. Our capacity ranges from our line of standard frames and cases to customer designed projects, whether it is one piece or hundreds. Our goal is to work with the conservation, exhibition and artistic communities to make the highest quality products at a reasonable price. We believe collaboration creates value both for our clients and for their audiences.

We are proud to say our products are made in the USA with solar power.

Capabilities

- Acrylic fabrication
- Aluminum and steel welding and finishing
- Cabinet work
- Fabric Lamination
- Powder coating and painting
- Sheet metal fabrication
- CNC sawing and routing
- LED and Fiber optic lighting

Unique Areas of Expertise

- Archival materials, adhesives and coatings
- Construction of sealed exhibit cases with air exchange rates as low as .02/day
- Design / construction of engineered picture framing and exhibit case solutions for small to very large objects
- Protection of objects from UV light damage

Classic Wall Case with decorative hardwood cap.

Sealed Wall Case with powdercoated aluminum frame and fabric-wrapped pinnable back deck.

Hinged Sealed Wall Case with powdercoated frame, rolling base and fabric-wrapped deck.
