About Us

Exhibit Cases

SmallCorp specializes in exhibit cases for the display and protection of art, from collector's cases to conservation-grade museum cases. We are famous for archival microclimate cases designed to protect sensitive objects from fluctuations in humidity and other environmental hazards. Our cases are custom made to the highest quality using the latest archival methods and technologies.

SmallCorp's museum cases are ideal for safeguarding precious objects. Our standard designs are customized to your size requirements and we offer custom case designing.

To ensure we are at the forefront of industry standards, we have continued to improve and refine our techniques and knowledge of materials over the last 50+ years.

Harvard Art Museum

Pedestal Cases

P-100

Featuring a step deck, this Medex® pedestal case protects your object from visitors and dust. This is a non-sealed and non-archival case.

Worcester Art Museum

P-200

A fixed Medex® deck is standard for this case with options for internal text rails available.

Shown with optional internal textrail

Peabody Museum at Harvard

P-500

Our most popular pedestal case is a sealed, 100% archival, museum case with a chamber to house environmental buffering materials beneath the deck.

Shown with optional internal textrail

P-800

Our premium microclimate pedestal case. This case offers maximum protection for sensitive artifacts and works of art and features a locking cabinet door for access to the leveling plate, silica gel chamber, and hidden pneumatic locks.

Table Cases

D-200

Popular for traveling or temporary exhibitions, this sealed microclimate case features removable legs.

D-400

An excellent choice for a minimalist aesthetic in a sealed microclimate table case. Perfect for works on paper and other small artifacts.

D-500

This 100% archival, microclimate table case includes Medex® panel legs with leveling feet. Panel legs provide a presence without dominating your space.

State Library of Massachusetts

D-800

Our premium microclimate table case features a hinged acrylic vitrine supported by gas lifters. Also includes keyed compression locking, and external access to the silica gel chamber.

Wall Cases

All SmallCorp Wall Cases include integrated hanging cleats.

Mead Art Museum

W-100

An object shelf wall case that is not sealed nor archival. This case has a lift-off 4-sided acrylic vitrine.

Mead Art Museum

W-200

Our simplest solution to wall exhibition. An acrylic vitrine is secured to a finish edged backboard.

Worcester Art Museum

W-300

A 1" powdercoated aluminum collar hides the edges of the fixed, finished Medex® deck and accommodates screws to secure the vitrine. This is a non-sealed and non-archival case.

Peabody Museum at Harvard

W-400

An archival, microclimate wall case consisting of a 2" powdercoated aluminum frame, removable deck, and acrylic vitrine. This case accommodates silica gel behind the display deck but does not include an external access door.

Framingham History Center

W-700

This microclimate wall case has a 3" powdercoated aluminum frame and external access to silica gel chamber.

W-900

Designed for one-person access, this hinged, sealed case comes standard with keyed locks, heavy-duty hinges, and external access to silica gel chamber.

PW-500

Our archival, microclimate back wall case has both a vertical and a horizontal display deck to maximize display opportunities.
